

# Nasra Public School

Date: August 12, 2020

Dear Parents,

Asalam o Aleikum Wa Rahmatullahe Wa Barakatohu,

We hope that you and all your family members are in good health.

As per the notification of Sindh Government, we are prepared for the reopening of schools and receiving students at our campuses. It is assured to all concerned parents, students and staff that NPS is committed to comply with all prescribed SOPs to ensure the safety of our students at the campuses.

Meanwhile, you must be aware that NPS has already transitioned to its online learning program, “NPS E-Connect”, and most of our students are engaged with it., including students, teachers and parents as well. Learning through an online platform is a new experience for everyone and it is time for the schools and parents to come together and support each other in order to minimize the impact on students’ learning due to school closures amid Covid-19 pandemic.

NPS E-Connect is a combination of two approaches. First, the Video lessons and assignments being uploaded on Edmodo, which is accessible for students to retrieve, complete and submit assignments. Students submit their queries through it and reach out to their respective teachers for the feedback during school hours. To further facilitate you, an option of completing assignment in copies and submitting them to your respective campuses is also available.

**Copies/notebooks can be submitted and collected once a week. Timings for submission and collection are as follows:**

- **Submission: Friday - 9:30 AM to 11:00 AM**
- **Collection: Monday – 10:30 AM to 11:30 AM**

Second approach is to summarize all the lessons and concepts taught via Edmodo, through weekly Review Session via Zoom. These reinforcement sessions conducted by teachers are held on every Saturday, keeping in view the likelihood of availability of parents and smart devices. Objective of these sessions is to bring the stakeholders (students, teachers and parents) on a single platform, to ensure that none of the topics are missed.

NPS is eagerly waiting to receive students at campuses and commence the process of teaching and learning on reopening of the school next month, In’Sha’Allah.

Best Regards,

School Management
