

Nasra Public School

Date: August 11, 2020

Dear Parents,

Asalam o Aleikum Wa Rahmatullahe Wa Barakatohu,

We hope that you and all your family members are in good health.

As we prepare for the reopening of schools and receiving students at our campuses, as per Govt. notification, it is assured to all concerned parents, students and staff that NPS is committed comply with all prescribed SOPs to ensure safety of our children at the campuses.

Meanwhile, you must be already aware that NPS has already transitioned to its online learning program, NPS E-Connect, as most of our students are already engaged with it. Learning through an online platform is a new experience for everyone involved, including students, teachers as well as parents. It is time for schools and parents to come together and support each other in order to minimize the impact of school closures due to Pandemic.

NPS E-Connect is combination of two approaches. First, the Video lessons and assignments being uploaded through Edmodo which is accessible for students to retrieve and complete. On completion and submission of assignments on Edmodo, teachers provide feedback as soon as possible. Students also submit their queries through Edmodo and can also reach out to their respective teachers during school hours. To further facilitate you, option of completing assignment work on copies and submitting copies to your respective campuses is also available. Copies can be submitted and collected once a week.

Timings for submission and collection of copies/notebooks are as follows:

- Submission of copies/notebooks: Friday - 10:00 AM
- Collection of copies/notebooks: Monday – 12:30 PM

Second approach is to summarize all the lessons / concepts taught through Edmodo during the week, though a weekly Review Sessions via Zoom. These non-interactive sessions are held on every Saturday keeping in view the availability of most parents and smart devices. Objectives of these sessions are to give students as well parents, a quick review of all lessons taught, to ensure none of the topics are missed and also a reinforcement of concepts.

Best Regards,
School Management
